# G40

## Convenience Compact

**Minimising the footprint** of standard antenna, the EVOLVE G40 offers retailers a solution to cover areas where installation of traditional EAS systems would prove challenging. Protecting hard to secure entrances the G40 is contained within a 3.1 x 5.1 inch footprint.

**Small format electronics:** Powered by Checkpoint's well proven and respected EVOLVE electronics, the smaller configuration delivers full system connectivity for remote servicing and consolidated management reporting. The G40's attractive slim profile, with red LED alarm light provides a visual theft deterrent,

**Durable for high traffic environments,** the G40's acrylic body and solid footing has been stress tested in multiple environments. For tougher entryways the G40 can be floor mounted with wall mount securing bracket for added resilience.

The G40's high-performance small form factor focusses on tough to protect areas, offering retailers EAS technology in an aesthetically pleasing, recognisable design.

### SMALL FOOTPRINT

### COVERS DIFFICULT TO PROTECT ENTRYWAYS

with back-shielding to prevent false alarms

### RED LED IN STATE OF ALARM

### FLOOR MOUNT WITH WALL SECURING BRACKET

### REMOTE CONNECTIVITY

seamless management reporting

Super slimline footprint:  
3.1 inch x 5.1 inch
