Neo

NP 10/20

The new range of Checkpoint wireless sensors revolutionises EAS systems. Reinventing every aspect of the traditional antenna, the new NP10 and NP20 boast a sleek & contemporary design structure, together with powerful performance improvements delivered by our new NEO wireless electronics.

- Increased aisle width between sensors, opening store entrances
- Wireless connectivity easy installation, instant secure synchronisation & network communication
- Multiple audio files - flexibility to choose alarm sounds or download a custom file

“Functional, beautiful and better performing, the NP range will change how you view EAS sensors.”

NEO wireless electronics

Intelligence built in

The NEO platform advances performance capabilities beyond traditional antenna. A sophisticated sensor, NEO connects directly to store networks, mobile and the Checkpoint cloud platform with no middleware, allowing continuous and seamless data gathering. With its 24/7 real-time self-health check, any issues are picked up immediately. The new electronics mean the antennas are compact and slimmer with the scope of supporting more technology, without changing the aesthetics of the antenna frame.

- Remote connectivity ensures the EAS investment is online 24/7
- Data Collection and management via Cloud/Real Time monitoring
- Live System health check via Smartphone app
- OnLine and Live Service Support.

PART NUMBERS

NP10 Primary Antenna- white	10079290
NP10 Primary Antenna- grey RAL7024	10063949
NP20 Primary Antenna- white	10144163
NP20 Primary Antenna- grey RAL7024	10144162

DIMENSIONS

NP10: 1742 x 508 x 76mm (Hx W x D)
NP20: 1742 x 343 x 76mm (Hx W x D)
